

ChitoHumus info

Product Name: ChitoHumus

Type: Fertilizer

Registration: Permit No. 06-26

DESCRIPTION: High-efficiency extract from high-moor peat and cultivated mushroom biomass. Contains humic substances, chitin-glucan complex, and amino acids. Promotes root system development, improves plant resistance to stress, and increases yield.

DECLARED COMPOSITION:

- Total Phosphorus (P₂O₅): 4.0 %
- Total Potassium (K₂O): 4.2 %
- Organic matter: 0.13 %
- Biologically active compounds: Chitin-glucan complex 0.02 %, Humic substances 0.13 %
- Reaction pH: 9.0
- Moisture: 95.0 %

INSTRUCTIONS FOR USE:

Shake before use! Dilute with water.

Culture	Treatment type	Dosage / Concentration	Usage
Cereals (Wheat, Oats)	Seed dressing	1:100 - 1:350	Seed dressing before sowing.
Potatoes	Spraying	0.1 – 0.2 l/ha	Treat 2 times per season (at canopy closure phase and before flowering).

Vegetables (Beets, Lettuce, Peas)	Spraying	0.2 l/ha	Treat 2-3 times during the vegetation period.
